This is a test project done as per request from a recent interview.

Application for searching TV shows.

- Basic functionality: Search shows, favorite shows and mark watched episodes and show info about show (via webview).
- Libraries used: Picasso for downloading images , Realm for persisting data and Retrofit for consuming tvmaze.com api.
- Source code + apk: https://www.dropbox.com/s/04f62gheu97kggx/CreativoTV.zip?dl=0
